You are invited!

We invite you to join us alongside leaders from around the world as we shine together and inspire generosity. Let's make this the year in which women claim their freedom to choose and apply their courage to lead and in a way that benefits nature, organizations and people.

Top business leaders, NGOs, artists, activists and politicians will meet in a colourful and diverse setting, integrating women's vision into modern business practises and tools.

We are coming together to look at what the opportunities are for women as they pioneer the future and illuminate new paths? What is the role of government, organizations and men as we all work together to build a better future?

We inspire and are inspired as we accelerate the empowerment of more women across the globe. Through world-class plenary sessions, practical workshops, benchmarking forums and coaching – we provide communities, companies and individual leaders the possibility to grow and contribute to a world in which the feminine and masculine is in harmony and we all flourish.
