# Welcome

Just like so many of you, Rajarshi Bhupendra Modi and Kristin Engvig are on a mission. Not only do they want to close the gender gap, they also want to create a world in which we go beyond gender, creating global harmony. In this world, each person contributes from their own authenticity and whole perspective and ways.

Rajarshi Bhupendra Modi is an industrialist and founder of the Global Citizenship Forum (GCF). Based in Singapore, GCF works to build a better planet based on interconnectedness, collaboration and unity. Kristin Engvig is the founder of WIN and has more than 26 years experience building bridges as a pioneer for women and pathfinder for the empowerment of the feminine around the world.

These two organizations came together in 2019 to expand their vision of a world in which everyone flourishes. It is time to expand a new leadership that is more authentic, sustainable, peaceful and harmonious. This collaboration brings women to the forefront and celebrates those who seek to embrace leadership on their terms.

GCF and WIN will convene over 2 days in 2024 at the United Nations in New York. In the lead up to the 2024 event, GCF-WIN is convening numerous high-quality meetings on peace, sustainability, new technology, global dialogue and going beyond gender, nationality and religion. Kristin Engvig was appointed head of the initiative. The next stop is *'Women Pioneering Global Harmony'* in Geneva where we are hosted by CSPOC.

GCF and WIN are honoured that CSPOC is hosting them and their respective communities to co-create and be a part of this timely gathering in Geneva.

## CSPOC - Our Host in Geneva

This meeting is hosted by CSPOC, a United Nations accredited NGO focused on self-sustaining solutions through integrating Health, Education and Enterprise, whilst celebrating Diversity & Inclusion and recognising women as key to longitudinal change.

Dr Royston Flude  
CSPOC

CSPOC President, Dr Royston Flude, is a well-known thought leader who has been instrumental in bringing self-sustainability into the United Nations agenda since the 1980s.

In this critical time for global peace and sustainability, Dr. Flude and his committee members wish everyone a warm welcome to Geneva as we come together to Pioneer Global Harmony.

# Women Pioneering Global Harmony

This meeting celebrates the tremendous efforts by women around the world in shaping an inclusive and thriving future. It focuses on how women do this in innovative ways, pioneering a sustainable, peaceful and harmonious future for all. With an objective to accelerate global harmony we will address: the environment, finding peace, the economy, leadership, diversity and inclusion, education, lifecycles, men & women, and more.

This meeting further explores the impact of women in leadership; how they can inspire others to live up to their full potential and leave a mark on their organizations, companies and the world.

Coming from numerous international organizations, companies and associations, participants will have a chance to learn and be inspired by several speakers and interact in small discussion groups. Purposeful networking will strengthen connections for our work together.

**When:** 10:30-18:00 11 May 2023

**Where:** Palais des Nations, Geneva.

Peace Gate "bis". The meeting will take place in Room XXVI, Building E.

**How:** You will hear from esteemed leaders in panel discussions and keynotes and connect with likeminded women and men through working groups and purposeful networking.
